The Awesome Time Is created to be A Wittnesses of God

God begins to give birth to time at early dark on day one (Hebrew "Yom Ekawd" or day He is One) and God said; "I form the light, I create darkness" (Isaiah 45:7). "In the beginning God created the heavens and the earth. Now the earth was formless and empty, darkness was over the face of the deep, and the spirit of God was hovering over the waters. "Then God said let there be light" (Gen 1:1-2). Every Scientist and geologist believe from the evidence that the earth was once on fire similar to the stars. The earth is the only recorded created entity that would give light on the first three days of creation. God did not identify the earth as a star or a sun but He identifies the earth as the Earth. The dark is created just once in the creation. The light occults on and off upon the dark.

Moons

the Luniations from the moon determine the festivals and solemnities in the Old Testament

God creates the Moon on the fourth day

Our modern day is measure as an artificial solar or day of the sun. In the entire Bible God does not record just once to have an artificial Bible solar day. Genesis 1-14 In the beginning creation there was no solar or Bible Sunday. The reason there was no sun, no moon or no stars created in the beginning first three days of the creation. Consequently in the first three days of creation it is impossible to have a solar Bible day of Sunday when there is no created sun. So the first day of creation is not a solar day as we today now identify one revolution of the earth upon it's axis and today the sun is measured artificially with instruments as the light occults on and off upon the earth once every twenty-four hours.
